WHO I AM

I am a young developer with a passion for technology, a computer scientist and a researcher in elastic optical networks. With more than 2 years of experience in web development, I have also dedicated myself to the field of mobile development. My goal is to combine my solid technical background with my creativity to create innovative and intuitive solutions for users.

EDUCATION

Bachelor's Degree | Universidade Federal do Piauí - UFPI

Computer Science: 85% completed.

EXPERIENCE

Scientific Research - PIBIC | CNPq | Aug 2019 - Aug 2021

Researcher at the Computer Networking and Distributed Systems Laboratory (DISNEL), where I worked in the area of elastic optical networks. I developed a resource allocation algorithm in Java that was published and presented in the XXXIX Brazilian Symposium on Computer Networks and Distributed Systems (SBRC 2021) through a paper.

Front-End Developer | Ponto Sistemas | Feb 2022 - Feb 2023

I worked as a front-end developer for an online customs inspection project, where I was responsible for web application development and design. I used technologies such as VueJS and SASS to create high quality visual components. In addition, I worked collaboratively with other teams to ensure seamless integration with business rules.

Front-End Developer | IndeCX | Mar 2023 - Present

Responsible for implementing the front-end of a new version of the platform, which is requested by thousands of users. I developed intuitive and standardized components using Vue 3 and Typescript, along with modern libraries. I worked collaboratively with the design team and back-end developers to ensure visual consistency and seamless integration.

CERTIFICATES

React.js + Next.js | Udemy | Prof. Luiz Otávio Miranda

23 seções • 433 aulas • Duração total: 92h 34m

Complete Guide of Vue JS - Incl. Router & Vuex | Udemy | Prof. Leonardo Moura

26 seções • 455 aulas • Duração total: 42h 55m

Ruby on Rails 5.x - From Start to Finish! | Udemy | Prof. Jackson Pires

7 seções • 274 aulas • Duração total: 47h 51m
